

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

GEIRIADUR CYMMRAEG A SAESONEG.

WELSH-ENGLISH DICTIONARY.

E B A

E, *A prefix in composition.* It implies aptness to act, or to move.

E, standing alone, as a word, implies action going on, and when it accompanies a verb it is the agent performing the action described without the discrimination of a person. The pronoun *it*; but the particular character is generally marked by the context; except in the *Siberian Dialect*, where it implies *he*, and *his*. It is appropriately the sign of the active participle, making actions of the present tense, which without it would be otherwise. It has also the form, in many expressions, of what would be termed an adverb. Examples, *gwelir*, there will be seen; *e welir*, seeing takes place, or, it is seen; *e'm gwelir*, the seeing of me takes place, or, I am seen; *e dyngui*, the agent swearing was, or he (she, or it) swore; *e dyngui y dyn*, the man swore, *nag e*, not it, or it not.

E fynydd y gath byged, ond ni fynydd witychu at throed.

The cat would have fed, but she would not have to wet her foot.

Eang, *a. (ang)* Ample, large, wide, loose, free. **Gwr eang**, a free man.

Eang yw y byd i hawb.

The world is spacious for all.

Eangawl, *a. (eang)* Tending to make spacious. **Eangder**, *s. m. (eang)* Spaciousness, capacity. **Eangiad**, *s. m. (eang)* A making capacious. **Eangrwydd**, *s. m. (eang)* Spaciousness, capacity. **Eangu**, *v. a. (eang)* To make ample or spacious. **Eawg**, *s. m.—pl. eogiaid (awg)* A salmon.

Nid mwynaid ond eawg.

There is nothing so pleasing as the salmon.

Eawn, *a. (awn)* Bold, daring, intrepid, brave.

Faws, *s. f.—pl. eösau (aws)* A nightingale.

Nid serchawg ond faws.

There is nothing so loving as the nightingale.

EB, *s. m. r.—pl. t. ion.* A going; a going from, a proceeding out of; a sending from; utterance; in a state abstracted from.

Eb, *v. a. (for ebu)* Tending to go, or proceed from; to send from; to utter; to say. *Eb fi, eb y fi, ebyff fi, ebyf fi*, quoth I; *eb di, quoth thou; eb efe, saith he; eb y ni, quoth we.*

Ebach, *s. f.—pl. t. an (eb—ach)* A nook, a corner, a cove, a bay.

Ac yna yr ni Collen i fynydd Glastonbury, ac yno i gwael efe guddigol dda obach carreg mewn lle dirgel.

And then Collen went to the mountain of Glastonbury, and there he made a hermitage under the corner of a stone in a secret place.

Duchedd Collen.

VOL. II.

Ffag o waith, fal ffagl o wellt;
Ffiloreg ffeiryd
Ffowdd fydd ffawddyn,
Ffod angliol' euglyn.

That Bodo will run away out of the pan; disgusting is the con-
duct of the youths of hidden coquette; his work is all wiled,
like a blaze of straw; the babbling of the feister of the ditcher is
slave of the scandal verse of the dirty fellow.
Bawyn Duellu, i B. Brwynllyd.

Ffadu, v. n. (ffad) To be disguised; to be cover-
ed over.

serving their patronymic name, were often called after names characteristic of the countries they inhabited; the two most universal of which being the open plains and the woods; hence originated the two grand distinctions of *Gal* and *Celt*, or the *open plain* and the *covert*, with others of similar import. Of the same meaning with *Gal* and its derivatives are *Gwal*, *Prydain*, *Peithyw*, *Gwynedd*, *Gwent*, and *Syllwg*, fair or clear regions. With *Crelltiau*, may be classed the *Gwyddyl* or *Gwyddelod*; the *Ysgodion*, or *Ysgodogion*, and *Celyddon*,—the people of the coverts; of whom it is remarkable to observe, that not one became so powerful and stationary as to confer its name on the country. These two classes subsisted by different means, the result of which must of necessity have been a state of warfare; hence with the *Celt* the appellation of *Gal* came to be synonymous with *Enemy*; for as the *Gal* or cleared region, became too fully peopled, it sent out colonies in search of other settlements, to occupy which war must frequently have been the consequence

maen glain, or *maen maegi*, snake stones, adder stones, or adder beads. The *main glain*, transparent stones, or adder stones, were worn by the different orders of bards, each having its appropriate colour; the blue ones belonged to the presiding bards, the white to the druids, the green to the ovates, and the three colours blended, to the disciples. There is no certainty that they were worn from superstition originally; perhaps that was the circumstance which gave rise to it. Whatever might have been the cause, the notion of their rare virtues was universal in all places where the bardic religion was taught.—It may still be questioned whether they are the production of nature or art. Be that as it may, they are always to be found in great numbers; and there are people who may be aptly called hunters, from whom they are to be had; but they insist on being credited, that the *Gleision* are only to be had at one season of the year; and that they are blown by a knot of snakes. *Ai chwythau y glain y maent?* what are they blowing the gem? (applied to people laying their heads together in conversation.)
